LETTER OF APPRECIATION

Utilizing your team in developing our business operation flow was influential to our successful commence and ability to compete in an extremely competitive market. We invested a lot of money to other vendor before and yet getting support needs to go through with the higher management prior to resolve the issue which is not easy to handle.

When I got the chance to introduce to your team, you made me visualize our business future growth and inspired me. Support is not an issue no more and that's how truly amaze I am. You have a stable system bundled with good long term support.

Two Thumbs up Gurusoft.

Yours truly,

Mr. Haruyuki Koyabashi
Managing Director
Mitsubishi Corporation LT Singapore Pte Ltd
