LETTER OF COMMENDATION

"The only constant in this world is change." And I totally believed on it. That's the reason why I fully trust my business to Gurusoft using your system. I found that you have a brilliant team to develop such software with a very powerful cloud technology and was endorsed by most enterprise company, even if you're at home or in holiday trip you can access and monitor in real time.

I'm totally impressed with the technology you are using. I am proud to have a software partner which gathered an ISV award from Microsoft. I believe you can help more business who struggle with a lot of pains.

Soar High Gurusoft!

Best Wishes & Regards,

Ivan Chia
